ABOUT ME

I am a B Tech student pursuing Mechanical Engineering and am constantly seeking to engage my knowledge to learn something useful.
Being a team player and a quick and efficient learner I am flexible with different technologies.
I am also a Web Development enthusiast

PROJECTS

DANCE ACADEMY WEBSITE

Programming languages used: **Pug, CSS, Javascript, Node.js, MongoDB**

A website which is capable of attracting users towards enrolment to a dance academy with Pug and CSS in the frontend and user data is collected and can be stored in the MongoDB Database with Node.js at the Backend.

GYM WEBSITE

Programming languages used: **HTML, CSS, Javascript**

An official website made for real word gym service.
Being a SaaS(Software as a Service) it considers the user data for service analytics to improve the services provided on the website in real time.
